

Call for Papers

15th Emerging Researchers' Conference for the History of Education

8-10 September 2023, Humboldt University Berlin

The 15th Emerging Researchers' Conference for the History of Education will take place on 8-10 September 2023 in the run-up to the conference "Freedom and Equality. Conflicts in the History of Education" (Berlin, September 11-13, 2023). This conference is the meeting of the History of Education Division (German Educational Research Association – GERA), and Emerging Researchers are welcome to attend this conference as well. Its topic, however, is not relevant for the Emerging Researchers' Conference.

The Emerging Researchers' Conference is geared toward all Emerging Researchers working on topics and issues related to the history of education. We want to provide them with the opportunity to present their dissertation projects and discuss their sources, research questions, strategies and/or preliminary results. In principle, all research projects are welcome, regardless of which stage they are in.

Project outlines should be submitted in German or English, approx. one page in length, along with a brief biographical note, to hbfi.emerging-researchers@uni-muenster.de by **31 May 2023**. Participation as a guest without submitting a contribution is also possible, but we ask for an informal registration via the above email address. More information on the conference's organization and programme will also be communicated via mailing lists and our Twitter account @HistEdGER.

Contact:

Dr. Andreas Oberdorf (Münster) / Stefanie Vochatzer (Paderborn).

Speakers of the Emerging Researchers of the History of Education Division
of the German Educational Research Association (GERA/DGfE)
